Campus OWL is a network of five higher education institutions in the region of OstWestfalenLippe (OWL) in Germany – Bielefeld University, Paderborn University, Bielefeld University of Applied Sciences, OWL University of Applied Sciences and Arts, and Detmold University of Music.

North America Liaison Office

The Campus OWL New York Office was founded in 2019 and represents these five higher education institutions in the United States and Canada. It is a nonprofit organization, and it is supported through contributions by the universities.

Mission

Campus OWL New York’s mission is to promote opportunities for study and research and to facilitate collaboration with North American partner institutions from academia and industry.

The office serves as a hub to connect students, researchers, entrepreneurs, and other stakeholders to enable cooperation and knowledge exchange.

We believe that international collaboration is important to encourage engagement, understanding, and exchange in our increasingly interconnected world.

What We Do

- Strengthen existing and build new institutional partnerships in the USA and Canada
- Offer advice on student exchange, short term study, and internship programs
- Promote full degree programs in innovative study and research areas
- Connect researchers and support research collaborations
- Collaborate with companies and with start-up communities
- Organize events and conferences for students, researchers, and alumni

Strong Region in the Heart of Europe

OstWestfalenLippe (OWL) in northwestern Germany is a region with an industrial focus, where business and research are closely connected. With over 140,000 companies and a gross domestic product of more than EUR 75 billion, OWL is one of the strongest commercial and technology centers in Germany, providing headquarters to many major transnational companies.

Dynamic Network

With over 65,000 students and more than 500 study programs in all academic fields, the OWL network is vibrant and dynamic due to its diverse nature. The members represent different university types – two universities, two universities of applied sciences, and one university of music – and collaborate closely with the many companies in the region. Major areas of collaboration are research, transfer, internationalization, and digitalization.

Opportunities

High quality of teaching and research, safe and green cities and surroundings as well as affordable living are just a few reasons why Campus OWL is so attractive for international students and researchers.

Degree Programs

Earn your Bachelor's, Master's or Doctoral Degree in OWL. The OWL universities offer a growing number of Master programs taught entirely in English and a stimulating research environment for doctoral students. Undergraduate study is offered in a wide variety of subject areas as well as work-integrated programs.

Student Exchange

The Campus OWL universities have a wide range of study programs and hands-on opportunities for exchange students from abroad.

Research & Innovation

The research activities range from groundbreaking basic research to applied research in cooperation with partners in industry, and often include interdisciplinary collaboration. Human-robot interaction, digital transformation of work or precision farming are just a few of the many innovative areas of research offered at Campus OWL universities.
